## Summary

---

I am a full-stack web developer with an interest in front-end web development. I have skills in JavaScript, HTML, CSS, and responsive web design, with strengths in creativity, teamwork, and organization. I seek a role as a web developer at a company where I can learn, grow, and continue to master the craft of web development.

## Technical Skills

---

**Front-End:** HTML, CSS, JavaScript, AJAX, jQuery, Bootstrap, React

**Back-End:** Node.js, Express.js, MySQL, Sequelize, NoSQL, MongoDB, Mongoose

## Projects and Applications

---

### Wrapped In Bananas

GitHub: <https://github.com/cghudson/wrapped-in-bananas> | Deployed: <https://wrapped-in-bananas.herokuapp.com/>

- A MERN stack digital yearbook for the University of Wisconsin Extended Campus Coding Bootcamp Spring 2022 class. Users can flip through a book of students, leave a signature, and write a message to the class.
- Worked as a group of 4 for the project. Responsible for the Signature and Message Board page.
- Built with MongoDB, Express.js, JavaScript, React, HTML, CSS, and Mantine

### Book Bits

GitHub: <https://github.com/cghudson/book-bits> | Deployed: <https://book-bits-blog.herokuapp.com/>

- A website designed to provide users with a forum to review and discuss books they have read. Once logged-in, users have the option to leave comments on reviews by other users or create their own reviews.
- Worked as a group of 4 for the project.
- Built with Express.js, Sequelize, MySQL2, Bcrypt, Handlebars, CSS-Star-Rating

### Meditation Buddy

GitHub: <https://github.com/cghudson/meditation-buddy> | Deployed: <https://mazattack1999.github.io/meditation-buddy/>

- A relaxing application that generates images and quotations for users to view. Favorite pairings can be saved for later enjoyment.
- Worked as a group of 4 for the project
- Built with HTML, CSS, JavaScript, Bulma

## Employment and Experience

---
