Portfolio: https://cghudson.github.io/portfolio-react/

Summary

Full Stack Web Developer with a Certificate in Full Stack Web Development from the University of Wisconsin Extended Campus. Inspired to create digital experiences that are easier for people and better for business. Team-oriented individual with strengths in creativity, organization, attention to detail, and the ability to work in a fast-paced and diverse environment.

Technical Skills

Front-End: HTML, CSS, JavaScript, AJAX, jQuery, React, Handlebars, Bootstrap
Back-End: Node.js, Express.js, MySQL, Sequelize, NoSQL, MongoDB, Mongoose
Related Skills: Git, GitHub, Heroku, VS Code, Insomnia, GraphQL Playground

Projects and Applications

Wrapped In Bananas   **August 2022**
A MERN stack digital yearbook where users can flip through student photos and leave a signature or a message.
GitHub: *https://github.com/cghudson/wrapped-in-bananas* | **Deployed**: *https://wrapped-in-bananas.herokuapp.com/*
- Utilized programs listed below to develop a functioning signature and message board page for students.
- Collaborated with 3 other students to design and execute the yearbook layout and finalized application.
- Built with MongoDB, Express.js, JavaScript, React, HTML, CSS, and Mantine

Book Bits   **June 2022**
A book review website with user authentication where users have the option to leave comments on reviews by other users or create their own reviews.
GitHub: *https://github.com/cghudson/book-bits* | **Deployed**: *https://book-bits-blog.herokuapp.com/*
- Applied pair programming and collaborated with 3 other students to create back end database models and routes using MySQL and sequelize.
- Assisted in front-end JavaScript implementation to allow users to create posts and comments.
- Built with Express.js, Sequelize, MySQL2, Bcrypt, Handlebars, CSS-Star-Rating

Meditation Buddy   **April 2022**
A relaxing app that generates random images and quotes. Users can view at random or save their favorite pairs.
GitHub: *https://github.com/cghudson/meditation-buddy* | **Deployed**: *https://mazattack1999.github.io/meditation-buddy/*
- Created routes to render images and quotes from two different third party API's.
- Saved data to local storage to view favorites.
- Built with HTML, CSS, JavaScript, Bulma
